Education

Vishwakarma Institute of Technology (VIT), Pune

Batch 2024–2028

B.Tech, Computer Science Engineering (Artificial Intelligence and Machine Learning)

CGPA: 9.35

Expected Graduation: 2028

Technical Skills

- **Languages:** Java, Python, C, JavaScript
- **Web & Frameworks:** React, Vite, Node.js, Express, Flask, Tailwind CSS, REST APIs, HTML/CSS
- **Databases & Tools:** MySQL, SQLite, Git/GitHub, VS Code
- **Core CS:** Data Structures & Algorithms, competitive programming (LeetCode)

Projects

AI News Sense

- Built a full-stack news discovery app using React, Vite, and Tailwind CSS on the frontend, with an Express (Node.js) backend
- Implemented keyword-based news search, a latest-articles feed, and loading skeletons for a responsive user experience
- Built a backend proxy to securely handle GNews API requests, keeping the API key server-side via environment variables

Expense Tracker

- Built a full-stack expense tracking web application using Flask, Flask-SQLAlchemy, and SQLite for persistent storage
- Implemented CRUD operations for expense records, with search, multi-field sorting (date, amount, name), and flexible date-range/preset filtering (today, week, month, year)
- Designed a dashboard displaying summary statistics including total spending, transaction count, and category-wise breakdown

Stock Portfolio Rebalancing Optimizer

Advanced Data Structures Course Project

- Designed a C-based portfolio rebalancing engine using AVL trees, heaps, B+ trees, and Bloom filters for efficient data handling
- Collaborated in a team environment and presented project design in a mid-semester review

Product Review Analyzer

- Built a rule-based NLP system in Flask to classify and analyze product reviews

Publications & Certifications

- IEEE Publication — research paper in the energy domain
- Google Cloud Study Jams — Certification
- Google Generative AI — Certification

Achievements & Activities

- Solved 150+ problems on LeetCode; active competitive programmer, regularly participate in contests
- Qualified for Round 2 (Online Pitching) of **VIT Code Apex 2.0**, a hackathon organized by the Artificial Intelligence Student Forum (AISF), VIT Pune
- Maintain a strong academic record (9.35 CGPA) while independently building and shipping multiple full-stack and ML projects
